---

## Objective

Motivated aspiring Frontend Developer with knowledge of HTML, CSS, JavaScript, and Python. Skilled in problem-solving and Data Structures & Algorithms. Passionate about building responsive and user-friendly web applications and continuously improving technical skills.

---

## Technical Skills

Languages: JavaScript, Python, HTML5, CSS3
Concepts: DOM Manipulation, Event Handling, LocalStorage, Data Structures & Algorithms
Tools: Git, GitHub
Other: Responsive Design, Basic OOP Concepts

---

**GITAM Deemed University** *Hyderabad, India*
*B.Tech in Computer Science Engineering* ***2023 – 2027***
**– GPA: 7.2/10.0**

**SR Junior college** *Nizamabad, India*
*Intermediate in Math's, Physics and Chemistry* ***2020 – 2021***
**– Percentage: 85%**

**SR Prime School** *Nizamabad, India*
*Secondary School Certificate (SSC) – State Board* ***2021 – 2020***
**– Percentage: 95%**

---

## Projects

**Smart Task Manager** (Link)
- Developed a task management web application using HTML, CSS, and JavaScript
- Implemented features like task creation, deletion, completion tracking, and filtering
- Used LocalStorage for persistent data storage
- Designed a clean and responsive user interface

**Personal Portfolio Website** (Link)
- Built a personal portfolio website to showcase projects and skills
- Designed responsive UI using HTML, CSS, and JavaScript

**Kethify.ai(Startup Idea)** (Link)

- Building a Concept of ai based platform integrating farming with technology

## Experience

**Technology Virtual Internship – Deloitte** (Certificate)
*Oct 2025 – Mar 2026*

- Completed coding and development-based job simulation
- Solved real-world inspired problems using programming concepts
- Gained understanding of software development workflows

## Certifications

**Gen AI Exchange Program – Google Cloud (Hack2Skill)** (Certificate)
*2025*

- Learned Generative AI fundamentals and real-world applications
- Explored tools like Vertex AI and prompt engineering
